About the job

Position Description

We are seeking a highly skilled AI Developer to join our technology team and drive the acceleration of AI-driven solutions. The ideal candidate will have 5+ Years of strong experience in AI/ML, large language model (LLM) integration, and workflow automation, along with hands-on experience in Java and the Spring Framework. This role focuses on designing, implementing, and scaling AI agents and intelligent workflows to enhance product capabilities and operational efficiency.

This is a hybrid role, requiring presence at our downtown Toronto office and/or client site for a minimum of 4 days per week (subject to change).

Your future duties and responsibilities

- Lead the design and development of AI-powered solutions, including AI agents, chatbots, and intelligent automation workflows.
- Integrate LLMs (e.g., GPT, Cohere, or open-source models) into Java/Spring-based applications for NLP, decision-making, and predictive analytics.
- Collaborate with cross-functional teams (developers, data scientists, product managers) to define AI strategy, roadmap, and technical requirements.
- Optimize AI workflows for scalability, performance, and cost-efficiency, leveraging Oracle databases for data management.
- Mentor junior developers and promote innovation in AI/ML practices.
- Stay current with emerging AI technologies and assess their business applicability.
- Ensure compliance with data privacy, security, and ethical AI standards.

Required Qualifications To Be Successful In This Role

- Strong experience in AI/ML development and LLM integration.
- Hands-on experience with Java and Spring Framework.
- Proven experience with workflow automation and AI-driven system design.
- Experience with MLOps practices, CI/CD pipelines, and model deployment in production.
- Knowledge of microservices architecture and event-driven systems.
- Experience working with Oracle databases or similar enterprise data systems.

Nice to Have

- Contributions to open-source AI projects or publications in AI research.

CGI is providing a reasonable estimate of the pay range for this role. The determination of this range includes factors such as skill set level, geographic market, experience and training, and licenses and certifications. Compensation decisions depend on the facts and circumstances of each case. A reasonable estimate of the current range is \$80,000–\$115,000. This role is an existing vacancy.

#INDCGIC

Together, as owners, let's turn meaningful insights into action. Life at CGI is rooted in ownership, teamwork, respect and belonging. Here, you'll reach your full potential because...

You are invited to be an owner from day 1 as we work together to bring our Dream to life. That's why we call ourselves CGI Partners rather than employees. We benefit from our collective success and actively shape our company's strategy and direction.

Your work creates value. You'll develop innovative solutions and build relationships with teammates and clients while accessing global capabilities to scale your ideas, embrace new opportunities, and benefit from expansive industry and technology expertise.

You'll shape your career by joining a company built to grow and last. You'll be supported by leaders who care about your health and well-being and provide you with opportunities to deepen your skills and broaden your horizons.

At CGI, we value the strength that diversity brings and are committed to fostering a workplace where everyone belongs. We collaborate with our clients to build more inclusive communities and empower all CGI partners to thrive. As an equal-opportunity employer, being able to perform your best during the recruitment process is important to us. If you require an accommodation, please inform your recruiter.
